

Experiment report for BAG MX-2432 beamtime

ID23-1 20 November 2022 – 21 November 2022

112 protein crystals measured, 48 datasets collected – no major issues

ID30A-3 10 February 2023 – 11 February 2023

208 crystals measured, 113 datasets collected – no major issues

ID23-1 1 April 2023 – 2 April 2023

92 crystals measured, 34 datasets collected – no major issues

ID23-2 11 May 2023 – 12 May 2023

178 crystals measured, 90 datasets collected – no major issues

ID23-2 20 June 2023 – 21 June 2023

80 crystals measured, 44 datasets collected – no major issues

ID30A-3 5 July 2023 – 6 July 2023

112 crystals measured, 31 datasets collected – no major issues

We have not encountered any major issues. We are grateful the beamline scientists for support.
