

	Experiment title: Investigation of the phase diagram of argon at high pressure and high temperature	Experiment number: HS-1517
Beamline: ID-30	Date of experiment: from: to:	Date of report: 08/02/2002
Shifts: 15	Local contact(s):	<i>Received at ESRF:</i>
Names and affiliations of applicants (* indicates experimentalists): James Badro* , CNRS, Laboratoire de Minéralogie—Cristallographie, Paris Guillaume Fiquet*, CNRS, Laboratoire de Minéralogie—Cristallographie, Paris François Guyot*, Univ. Paris 7, Laboratoire de Minéralogie—Cristallographie, Paris Philippe Gillet*, ENS-Lyon, Laboratoire de Sciences de la Terre, Lyon		

Report:

THE EXPERIMENT WAS POSTPONED TO FEBRUARY 2002. THE ONLINE LASER-HEATING SYSTEM WAS NOT AVAILABLE AT THE TIME THE EXPERIMENT WAS FIRST SCHEDULED.
