

	Experiment title: BARS high resolution native. <i>Mycobacterium tuberculosis</i> HbO tests. SOD mutants.	Experiment number: LS-1933
Beamline: ID14-2	Date of experiment: from: 5/10/01 to: 6/10/01	Date of report: 1/9/02
Shifts: 3	Local contact(s): Stephanie Monaco	<i>Received at ESRF:</i>
Names and affiliations of applicants (* indicates experimentalists): Mario Milani, Marco Nardini, Simone Zuccotti X-Ray Structural Biology Unit Advanced Biotechnology Center L. go R. Benzi 10, 16132 Genoa (Italy).		

Report:

**We had problems with poor diffracting crystals and with the beam stop position, that caused beam stop diffraction.
We did not collect nothing.**
