

Experiment title:
Structure determination of SseA, a 3-mercaptopyruvate
sulfurtransferase from *E. coli*

**Experiment
number:**
LS 2183

Beamlines: ID14-2	Date of experiment: from: 8-4-2002 to: 10-4-2002	Date of report: 1.09.02
Shifts: 2	Local contact(s): Dr Steffi ARZT	<i>Received at ESRF:</i>

Names and affiliations of applicants (* indicates experimentalists):
Andrea Spallarossa,* Domenico Bordo and Martino Bolognesi
Advanced Biotechnology Center
L.go R. Benzi, 10
16132 GENOVA

Report:

Data collection at ESRF

SseA crystals diffract at low resolution (3.2Å) and display high mosaicity (1.7 degrees). No data were therefore collected.
