**Report:** The results obtained in this experiment are published in  
**Phys. Rev. Lett. 119, 227003 (2017)**

**Figure 2.** Thermal expansion for  $\text{Cu}_3\text{Bi}(\text{SeO}_3)_2\text{O}_2\text{X}$  ( $\text{X} = \text{Cl}, \text{Br}$ ). The antiferroelectric transition at 110 K in the Cl compound is seen clearly.
