

## LONG TERM PROJECT (LTP) EXPERIMENT

### INTERIM REPORT

|  |                                     |
|--|-------------------------------------|
| <b>Experiment title:</b> ROCK-DEFORM-4D: Unravelling the spatio-temporal nature of rock deformation by 4D tomography | <b>Experiment number:</b><br>ES-295 |
| <b>Main-Proposer :</b> Francois RENARD   |                                     |
| <b>Beamline and dates of experiment :</b> ID19   |                                     |
| 27/01/2016   | 28/01/2016                          |
| 25/02/2016   | 27/02/2016                          |
| 26/04/2016   | 29/04/2016                          |
| 18/10/2016   | 21/10/2016                          |
| 13/11/2016   | 14/11/2016                          |
| 05/04/2017   | 07/04/2017                          |
| 01/05/2017   | 02/05/2017                          |
| 24/08/2017   | 25/08/2017                          |
| 08/11/2017   | 11/11/2017                          |
| 27/03/2018   | 29/03/2018                          |

A confidential report was submitted for this experiment; it was sent to the User Office **8 December 2017**.
