

STANDARD EXPERIMENT

CONFIDENTIAL REPORT

Experiment title: The stability window of the p-sc structure in the phase diagram of P: implications for the sp orbital mixing and the anomalous superconducting Tc.	Experiment number: CH-6468
Main-Proposer : Matteo CEPPATELLI	
Beamline and dates of experiment : ID27, 25/01/2023 to 30/01/2023.	

A confidential report was submitted for this experiment; it was sent to the User Office on 24 February 2023.
