

	Experiment title: Analysis of the molecular basis of frost resistance in plants	Experiment number:
Beamline:	Date of experiment: from: 29 Oct 1999 to: 1 Nov 1999	Date of report: 28 Feb 2001
Shifts:	Local contact(s): Michel Roth	<i>Received at ESRF:</i>
Names and affiliations of applicants (* indicates experimentalists): *Dr J.B. Rafferty - University of Sheffield Prof. D.W. Rice – University of Sheffield *Dr P.J. Baker – University of Sheffield Dr P.J. Artymiuk – University of Sheffield		

Report:

In the intervening period between the application for beam time and the date of the experiment, the structure of squash glycerol-3-phosphate-1-acyl transferase was determined by MIR methods. A manuscript describing this work has been submitted to Structure and the coordinates will be deposited in the PDB.
