

DUBBLE – EXPERIMENT REPORT

We kindly request you to answer the questions (max 2 pages) and return the form to NWO **within 2 months of the completion of the experiment** to dubble@nwo.nl

Beam time number: 26-01-1056	File number: 195.068.875	
Beamline: BM26A	Date(s) of experiment: 03/07/2016 – 08/07/2016	Date of report: 03/08/16
Shifts: 12	Local contact(s): D. Banerjee	

- 1. Who took part in the experiments?** (Please indicate names and affiliations)
M. Fernanda Neira D'Angelo (TU/e)
Shamayita Kanungo (TU/e)
M. Teresa de Martino (TU/e)
Carlo Buijs (TU/e)
- 2. Were you able to execute the planned experiments?**
YES
- 3. Did you encounter experimental problems?**
NO
- 4. Was the local support adequate?**
YES
- 5. Are the obtained results at this stage in line with the expected results as mentioned on the project proposal?**
YES
- 6. Are you planning follow-up experiments at DUBBLE for this project?**
YES
- 7. Are you planning experiments at other synchrotrons in the near future?**
YES. Experimenting at DUBBLE is preferred, but if not available we will try other facilities.
- 8. Do you expect any scientific output from this experimental session (publication, patent, ..)**
YES (If YES, please anticipate a date for submission of the envisaged publication/patent; If NO, please specify)

The experiments conducted were highly successful, we have very much improved understanding of the catalysts in operando conditions, which agrees with our previous observations regarding the catalytic performance. In the next couple of months we will write one paper on this topic, which should be ready for submission at the end of this year.
