Interaction of 3d and 4d magnetic impurities with strongly spin-valley coupled two-dimensional semiconductors

Experiment number:

HC-2998

Main-Proposer:

Pietro Gambardella

Beamline and dates of experiment:

ID32 – 14 to 20 June 2017 (18 shifts)

A confidential report was submitted for this experiment; it was sent to the User Office on 11 September 2017.
