EUROPEAN SYNCHROTRON RADIATION FACILITY

STANDARD EXPERIMENT

CONFIDENTIAL REPORT

Experiment title:	Experiment number:
Interlayer bond formation in black Phosphorus at high pressure: pressure range and thermodynamic vs meta- stability of the recently discovered pseudo simple-cubic structure	CH-5446
Main-Proposer :	
Matteo Ceppatelli	

Beamline and dates of experiment:

ID27 - 9 shifts (29/05/2018 to 01/06/2018)

A confidential report was submitted for this experiment; it was sent to the User Office on 14 January 2020.
