

STANDARD EXPERIMENT

CONFIDENTIAL REPORT

Experiment title: Ptychographic mapping at high energy of the nanometer morphology of porous single crystal gold particles	Experiment number: MA-4352
Main-Proposer : ZASLANSKY Paul	
Beamline and dates of experiment : 6 to 13 September 2018 – 18 shifts on ID16A-NI	

A confidential report was submitted for this experiment; it was sent to the User Office 19 February 2020.
