

STANDARD EXPERIMENT

CONFIDENTIAL REPORT

Experiment title: High pressure chemistry of arsenic and hydrogen: from hydrogenated layers to molecular hydrides and extended As-H phases.	Experiment number: CH-5791
Main-Proposer : Matteo Ceppatelli	
Beamline and dates of experiment : ID15B, 07/10 – 12/10/2020	

A confidential report was submitted for this experiment; it was sent to the User Office 04 February 2021.
