

STANDARD EXPERIMENT

CONFIDENTIAL REPORT

Experiment title: Systematic investigation of the mechanical degradation in battery cathode by probing the structural and chemical heterogeneity using x-ray phase-contrast nano-tomography	Experiment number: MA-4626
Main-Proposer : Yijin LIU	
Beamline and dates of experiment : ID16A-NI – Sessions: 11-14/11/2020 (9 shifts) and 10-13/12/2020 (9 shifts)	

A confidential report was submitted for this experiment; it was sent to the User Office on **3rd March 2021**
