

STANDARD EXPERIMENT

CONFIDENTIAL REPORT

Experiment title: High pressure study of charge density wave ordering in P-doped BaNi ₂ As ₂	Experiment number: HC-4442
Main-Proposer : Tom Laurin LACMANN	
Beamline and dates of experiment : ID15B – 22-28/06/2021	

A confidential report was submitted for this experiment; it was sent to the User Office on 10 September 2021.
