

STANDARD EXPERIMENT

CONFIDENTIAL REPORT

Experiment title: Probing the E4 State of Mo Nitrogenase using Fe,Mo K α High Energy Resolution Fluorescence Detected X-ray Absorption and Fe Valence-to-Core X- ray Emission Spectroscopies	Experiment number: CH-6038
Main-Proposer : VAN STAPPEN Casey	
Beamline and dates of experiment : 25-31/01/2022 (18 shifts) on ID26	

A confidential report was submitted for this experiment; it was sent to the User Office 1st March 2022.
