

STANDARD EXPERIMENT

CONFIDENTIAL REPORT

Experiment title: Unveiling the Melting Point and High-Temperature Crystal Structure of Choline Chloride and Its Eutectic Mixtures using Simultaneous Fast Scanning Calorimetry and micro-XRD	Experiment number: CH-6310
Main-Proposer : Adriaan Van den Bruinhorst	
Beamline and dates of experiment : ID13, 06/04/2022 to 13/04/2022	

A confidential report was submitted for this experiment; it was sent to the User Office 22/09/2022.
